Our Vision

Providing easy-to-use services and facilitating self-service and training staff thoroughly are key components.

Our Mission

Empower users by providing secure and 24/7 access to their health care information. Visit Clinic facilitates the management of medical records, enables the scheduling of appointments, and offers the ability to communicate with health care providers.

OUR SERVICE

Sending SMS allows users to quickly transmit short text messages (up to 160 characters for English and 70 for Arabic) between mobile devices without internet access.

Sending Bulk SMS involves transmitting numerous text messages simultaneously to multiple recipients, commonly used for marketing, notifications, reminders, and alerts.

WhatsApp and Telegram messages refers to the process of using these popular messaging platforms to communicate with users, typically for purposes such as customer engagement, marketing, notifications, and alerts. Here's a brief overview:

The portal streamlines SMS messaging to predefined group members by displaying their phone numbers, allowing effortless communication management.
