1. Modern Systems for Software Development

1.1 Introduction

Modern Systems for Software Development is a dedicated software firm with a core focus on delivering software development, analysis, and implementation services that adhere to global standards. Our mission is to craft cutting-edge software solutions that meet the complex needs of our clients, ensuring quality and excellence in every project we undertake. By integrating international best practices into our processes, we strive to set a benchmark in the software industry.

Modern Systems for Software Development has innovated a healthcare software solution designed to streamline online services for medical professionals and pharmacies. This platform also serves as a vital tool for medical sales representatives. Crucially, it is engineered with the general public in mind, allowing them to engage with the system for their healthcare needs. Medical practitioners and pharmacists utilize this system to efficiently locate and serve patients, ensuring accurate and timely distribution of medications and services.

The platform is designed to provide a comprehensive suite of features, encompassing various medical fields such as internal medicine among others. Additionally, it will offer an extensive directory of over 189,000 commonly used medications, meticulously categorized by country for universal accessibility.

Visit Clinic provides a suite of general modules, including an accounting module with a comprehensive general ledger to track income and expenses for clinics and pharmacies. Additional modules are available within the system. To access detailed information, please proceed with registration.

Modern Systems for Software Development provides comprehensive software analysis services adhering to the highest standards for both private and public entities. Utilizing frameworks like the Information Technology Infrastructure Library (ITIL), which is renowned globally and tailored for IT services, they offer a suite of about twenty-six business processes. Additionally, ITIL offers a range of professional certifications catering to various expertise levels, from beginners to experts.

Modern Systems for Software Development provide comprehensive business analysis, aiding organizations in adopting processes aligned with global standards. Additionally, they offer specialized software solutions for processes like incident and knowledge management, enhancing operational efficiency and information governance.

The founder of Modern Systems for Software Development previously established a successful track record with notable entities such as Microsoft, Horvath, and Link Dot Net within a governmental framework.

The Capability Maturity Model Integration (CMMI) is a globally recognized standard that aims to enhance business processes, enabling organizations to conduct their operations more systematically. It encompasses approximately twenty-two distinct business processes. The proprietor of a company has been involved in a significant CMMI transformation initiative within governmental entities. To disseminate practical insights on CMMI application, this individual has authored and freely distributed an e-book, drawing from authentic implementation experiences, for the benefit of software engineers seeking to apply these principles in practical scenarios.

The founder of Modern Systems for Software Development holds a strong belief in the development of human resources, particularly in nurturing young talent. This commitment extends to providing expertise in software business process development and analysis, which contributes to the national economy in the IT sector. Their dedication led to the collaboration with a U.S. consultant in authoring a comprehensive book on CMMI, which they generously offer free of charge to the global community.

Custom software development, including portal creation, is tailored to meet the specific needs and objectives of clients, as guided by their recommendations and directives. Modern Systems for Software Development specializes in crafting bespoke software solutions that cater to the unique requirements of customers, ensuring accessibility through online platforms or internal networks.

Modern Systems for Software Development is committed to embracing diversity in IT specialization, ensuring that customer demands are met with professional services and products that adhere to international standards, all offered at competitive prices.

1.2 Why Modern Systems

Organization leaders strive to offer outstanding products and services that meet the needs and expectations of a global clientele. IT departments bear a crucial role in providing high-quality e-services that align with the organization's financial agreements and management expectations. It is essential to seek cost-effective solutions that support the organization's objectives and ensure sustainable operations.

Modern Systems for Software Development, based in Egypt, is dedicated to meeting the diverse software requirements of all users. With a strategic approach, Modern Systems for Software

Development offers vital support to various private and public entities, delivering high-quality, cost-effective in-house software solutions. Additionally, the company specializes in tailoring renowned global software to align with the unique needs and objectives of its clients.

Modern Systems for Software Development boast extensive expertise in business processes and the implementation of software solutions. They strategically utilize a selection of technologies in synergy to fulfill the specific needs of organizations. This approach ensures that each technology is leveraged effectively to enhance the organization's operational efficiency and achieve its strategic objectives.

Modern Systems for Software Development are committed to fostering human welfare, particularly for the youth, to accomplish strategic objectives aimed at ensuring a high quality of life for all. This commitment is mirrored in the services offered to both local and global markets, reflecting a dedication to excellence and a better future through technological advancement.

Modern Systems for Software Development specializes in delivering bespoke software solutions, including proprietary platforms such as VisitClinic.org. We cater to the unique requirements and expectations of our clients, whether it involves developing custom software from scratch or tailoring existing products like Microsoft SharePoint to meet specific business needs. Our commitment is to ensure that our software aligns perfectly with the client's vision and operational demands.

Modern Systems for Software Development are equipped to deliver solutions that adhere to a variety of global standards, including the Information Technology Infrastructure Library (ITIL), Customer Relationship Management (CRM), and the Capability Maturity Model Integration (CMMI). These systems are designed with the flexibility to be customized and configured to meet the specific needs of different international standards.

Modern Systems for Software Development is committed to delivering comprehensive support through our team of expert consultants. We specialize in analyzing and developing software solutions that are tailored to meet our customers' expectations and align with their strategic organizational goals. Our approach ensures that the software we configure is not only functional but also a strategic asset to our clients' operations.

1.3 Modern Systems Services

Modern Systems for Software Development, a dedicated entity within the IT sector, is committed to refining business processes and bolstering visibility for both internal staff and external clientele, aligning with the company's strategic goals. Our proficiency lies in ongoing process enhancement, a key aspect of our services designed to foster organizational growth.

Modern Systems for Software Development are designed to enhance service delivery, both online and offline, by tackling the challenges faced by internal and external customers. These systems strive to foster innovation, providing tailored solutions that assist all stakeholders in reaching their objectives efficiently. By leveraging modern methodologies and technologies, they offer a robust framework for businesses to improve customer satisfaction and operational excellence.

Modern Systems for Software Development boasts a wealth of experience across various software domains. Recognized globally, the following frameworks are among the most widely adopted by organizations, and Modern Systems for Software Development is well-equipped to assist any organization by offering comprehensive software solutions and thorough process analysis. Their expertise ensures that clients receive tailored, cutting-edge software strategies that align with industry best practices.

1.4 Visit Clinic 1# Medical Society

Visit Clinic offers an integrated platform designed for healthcare professionals, including doctors, pharmacists, and laboratory technicians, medical factories, computer stores, medical factories, schools, educational institutions; faculties; and universities, as well as sales representatives and individual clients. This comprehensive system facilitates seamless collaboration across various medical services, ensuring a more cohesive healthcare experience. By uniting diverse roles within a single interface, Visit Clinic streamlines the delivery of medical care and support.

Visit Clinic offers a user-friendly platform with a vast array of features suitable for various needs. It is equipped with numerous functionalities that cater to diverse preferences, ensuring that you can easily find what you're searching for. The dedicated team of consultants continuously updates the website, striving to meet and exceed user expectations with every enhancement.

1.5 Visit Clinic dashboard

Explore visit clinic's portal to discover the outstanding services we offer. The accompanying graph illustrates the success story of our portal, showcasing the effectiveness and reach of our services through compelling numerical data. This visual representation serves as a testament to our commitment to excellence and the measurable impact we have on our community's health outcomes.

1.6 Visit Clinic Youtube Video

Modern Systems for Software Development's Visit Clinic would like to draw your attention to our video content. Please be aware that due to ongoing updates to our portal, this content may no longer be current. We encourage you to log in to the system or download the most recent documentation directly from the portal to ensure you have access to the latest information. Thank you for staying updated with us.

1.7 Microsoft Copilot

Microsoft Copilot is an AI-powered assistant designed to enhance your productivity and simplify various tasks. Integrated within Microsoft 365 applications like Word, Excel, Outlook, and PowerPoint, Copilot helps users by:

- **Generating Content:** It can create text, generate summaries, and offer suggestions to improve writing.
- **Answering Questions:** It provides accurate and relevant information, helping you find answers quickly.
- **Performing Tasks:** It can automate repetitive tasks, freeing up your time for more important activities.
- **Providing Insights:** It analyzes data and provides insights, making it easier to understand and utilize information effectively.
- **Creative Projects:** It assists in brainstorming ideas and generating creative content.

With Copilot, you have a powerful tool at your disposal to enhance productivity and streamline your workflow.

Microsoft Copilot offers several plans to cater to different needs:

1. **Standard Copilot:** This is the free version that provides access to basic AI features, such as generating and editing AI images, and using GPT-4 during non-peak hours. It's available on the web, Windows, macOS, iPadOS, and mobile apps¹.
2. **Copilot Pro:** For \$20 per month, this plan offers priority access to GPT-4 and GPT-4 Turbo during peak usage times, 100 boosts per day for creating AI images, and access to Copilot in the free web versions of Word, Excel, OneNote, and Outlook.
3. **Copilot for Microsoft 365:** Priced at \$30 per month, this plan integrates seamlessly with Microsoft 365 apps (Teams, Word, Outlook, PowerPoint, Excel, etc.) and includes enterprise-grade security, privacy, and compliance.

4. **Copilot Studio:** This is a low-code, end-to-end conversational AI platform that allows you to build and customize your own Copilots.

Each plan offers different features and benefits, so you can choose the one that best fits your needs. Would you like more details on any specific plan?

How to register and activate your Hotmail account for Microsoft Copilot for free, follow these steps:

1. **Create a Microsoft Account:** If you don't already have a Microsoft account, sign up using your Hotmail email address. Visit the Microsoft account creation page and follow the instructions to create your account¹.
2. **Access Free Microsoft 365 Apps:** Once your account is created, you can access the free online versions of Microsoft 365 apps like Word, Excel, Outlook, and PowerPoint. These apps are available for free with a Microsoft account¹.
3. **Enable Copilot:** To enable Copilot in the free version, you may need to check for updates in the Microsoft 365 apps and ensure that Copilot features are turned on. You can usually find this in the settings or options menu of each app.
4. **Check for Updates:** Make sure your Microsoft 365 apps are up to date, as Copilot features may be included in recent updates.
5. **Use Copilot:** Once enabled, you can start using Copilot to assist you with various tasks in the Microsoft 365 apps.

Microsoft Official Copilot Website <https://copilot.microsoft.com/>

1.8 Portal Response Challenge

The Visit Clinic portal offers user-friendly functionalities and straightforward development strategies to address potential issues arising from ambiguous software development challenges, ensuring a consistently fast response. However, low portal response times could be attributed to one of the following reasons:

- 1- Check your internet connection speed using well-known portals such as Speedtest <https://www.speedtest.net/>
- 2- Ensure your internet bundle is active. If necessary, restart the internet router or contact your internet provider for technical support.
- 3- Open the portal and allow it to fully load. This helps your browser download cache files, ensuring it is ready and faster for future visits.
- 4- You can download widely-used internet browsers:
 - a. Microsoft Edge <https://www.microsoft.com/en-us/edge/?form=MA13FJ>
 - b. Google Chrome <https://www.google.com/chrome/>
- 5- If you encounter any new issues, please don't hesitate to contact us by email, including a screenshot for reference.

1.9 Portal Migration

The Visit Clinic portal has been migrated from www.visitclinic.org to the current portal www.visitclinic.net, following the strategic directions and recommendations of Modern Systems for Software Development. The portal's Facebook and LinkedIn pages remain unchanged.

If you need any assistance or guidance, please feel free to contact the company through the approved communication channels listed at the end of this document

2. Human Medical Drugs Library

Medicinal substances are compounds utilized in identifying or managing health conditions, or to aid in mitigating or averting them. Typically, these substances modulate a bodily function rather than engendering a new one. A drug is officially recognized as any legally sanctioned medication, verified to be (comparatively) safe from causing the user any physical or psychological detriment. The primary application of most drugs is to heal specific illnesses, for instance, employing antibiotics to combat an infection, to address particular health issues, such as using antidepressants for depression, or to alleviate symptoms, like the utilization of analgesics for pain relief. Additionally, drugs play a role in disease prevention, exemplified by vaccines like the flu shot.

2.1 Searching for medical library resources

The drug search service offers a comprehensive platform for users to locate and compare medication prices effectively. Meanwhile, Visit Clinic serves as a valuable resource for healthcare professionals, including doctors and pharmacists, by providing access to a medical drug encyclopedia. This extensive database encompasses information from ten different countries and integrates seamlessly with Google and Wikipedia, allowing for the retrieval of free information regarding various medications.

2.4 Corporate pharmaceuticals Inventory

The Drug Data Update Service is an innovative platform designed to assist healthcare professionals in managing pharmaceutical information. Through this service, doctors and pharmacists can effortlessly search for medications and verify their prices. Additionally, the Visit Clinic website provides a user-friendly interface for these professionals to update essential drug details, including its availability within the clinic or pharmacy, current pricing, and barcode identification. This ensures that the most accurate and up-to-date information is always accessible.

2.6 Request for Inclusion of a new Medication

The Visit Clinic portal is designed to offer a comprehensive request management system, enabling the seamless addition of new medicinal products to the Visit Clinic medical directory. This feature streamlines the process for healthcare providers to update and expand their medicinal inventory, ensuring that the directory remains current and inclusive of the latest pharmaceutical advancements. By utilizing this system, medical professionals can efficiently manage their product offerings, ultimately enhancing the quality of care provided to patients.
