ABOUT US

Modern Systems for software development is a specialized establishment in IT industry will offer optimized business process and enhance the organization visibility for internal employees and external customers based on the organization strategies. Continuous process improvements is one from our expertise to help the organizations to grow.

ABOUT VISIT CLINIC

Visit Clinic is a complete system provided to doctors, pharmacist, sales agents, laboratory, medical sales agents, medical factories, medical companies and individual users to collaborate with each other's in one platform in order to provide medical services.

What is Visit Connect

The Medical Social Media Platform

Visit Connect is a groundbreaking social media platform tailored specifically for medical organizations, offering a comprehensive space to share official posts and engage with user thoughts and feedback. Its unique challenge lies in the seamless integration with the Visit Clinic portal, demanding a sophisticated design that balances the open nature of social interaction with the structured data and functionality of a medical information system. This integration promises a powerful synergy, but necessitates a careful approach to ensure both user experience and data integrity are maintained.

Visit Connect Features

Connect & Engage with Visit Connect

Visit Connect offers comprehensive social content management tools, enabling subscribed users to create new posts, browse their posting history, and engage with the platform's content. All registered users can explore and search existing posts, fostering a vibrant community. This focus on content creation and accessibility empowers users to actively participate in discussions and stay informed about relevant medical information.

Verified Information: Visit Connect's Profile Integration

Visit Connect enhances post credibility and searchability by integrating comprehensive user and company profile information directly within each post. This enriched context allows both post viewers and owners to quickly assess the source and authority behind the content, fostering trust and transparency within the platform. By linking posts with relevant profiles, Visit Connect streamlines access to additional information, facilitating a deeper understanding of the content and its origins.

Visit Connect - Post Features

Visit Connect: Engaging Users Through Enhanced Post Links

Visit Connect enhances user engagement by incorporating various links within posts, enriching the content and fostering a more interactive experience. This strategic approach adds depth and credibility to the platform, as posts are primarily generated by subscribed users, ensuring a higher level of authenticity. By restricting posting privileges to subscribed users, Visit Connect cultivates a more reliable and trustworthy environment for sharing valuable medical information. This distinction sets it apart from traditional social media platforms, where content from unverified sources can often lead to misinformation.

Visit Connect - Post Features

Engage and Connect: Visit Connect's User-Centric Approach

Visit Connect fosters a unique and engaging environment for user interaction. By allowing post owners to grant commenting privileges, it encourages thoughtful discussions and knowledge sharing within the community. Furthermore, Visit Connect provides detailed user information within each post, including profiles, resumes, and contact options such as email, WhatsApp, and SMS. This comprehensive approach facilitates seamless communication and collaboration among users, promoting a more connected and interactive medical community.
